3. Validity

These conditions are valid for the placement of specialist workers for the execution of assembly work, which is carried out at the responsibility of the customer.

4. Pricing

Where no other agreements are reached the costs for the placement of the assembly personnel will be paid by the hour. Accounting will be carried out in accordance with the above conditions. Our assembly invoices are payable in full immediately on receipt.

5. Company liability

The company is only liable for the correct selection and punctual placement of the assembly personnel. The company liability is, however, limited to 5% of the sum paid for the placement of the assembly personnel.

6. Safety regulations, working conditions

The customer is obliged to ensure workplace safety, the observation of existing safety regulations and adequate working conditions.

7. Customer liability

In the event that the equipment or tools provided by the company are damaged or lost during transportation or at the place of assembly, then the customer is obliged to replace the damaged or lost goods.

8. Court of jurisdiction

The court of jurisdiction is the location of the headquarters of the relevant company. This company can, however, also select the court responsible for the customer.

9. Other conditions

The general conditions for mechanical engineering for the placement of assembly staff are also valid.

Valid from 01/08/2025
